Professional products for the cleanness and hygiene on gas stations

Everything's squeaky clean and hygienic!

Floor cleaning

Gas stations are being heavily frequented every day. Thus, customers carry considerable soiling, e. g. from the pump areas, into the shop. Particularly the floor is affected. For its cleaning, KIEHL offers highly effective, innovative products. Even for floors, which are difficult to clean, e. g. porcelain floors, safety tiles or coverings with high claim, e. g. parquet in dining areas, KIEHL product solutions guarantee perfect results visually and hygienically.

Floor – routine cleaner

3

4

Surface routine cleaner – ready to use

4 **Optima**

Surface special cleaner and stripper – ready to use

5 **Tablefit**

5

Surface cleaning

Shop and bistro are the cash cows of the gas station. A tidy, hygienic presentation of the goods and services provides an attractive effect to customers. KIEHL surface cleaners guarantee a streak-free drying, pleasant smell and ensure high gloss and an appealing purchase atmosphere in the shop. Checkout areas, tables, doors, counters, shelves, window sills, displays, office furnishings, a.s.o. can be kept clean effortlessly with the mentioned products.

Everything's appetizing clean and hygienic!

Cleaning and disinfection in food areas

In the processing and distribution of food, a good hygienic practice (GHP) and the implementation of a HACCP concept is being required. Gastro and food counters are being assessed particularly critically both from gas station customers and from the respective authorities. A high hygiene standard is secured by developed and approved cleaners for food areas as well as by tested and listed disinfection products according to EN standards.

Cleaning and disinfection of kitchen floors and areas as well as kitchenware (e. g. fridges) – concentrate
DVG listed; tested to EN 1040, EN 1275, EN 1276 and EN 13697

6 **Blutoxol**

11 **ARCANDIS®-Eco**

Dishwasher tablets

12 **ARCANDIS®-Tab**

Rinse aid

13 **ARCANDIS®-Splend**

Manual dishwashing liquid

14 **Disoman**

Manual and mechanical dishwashing

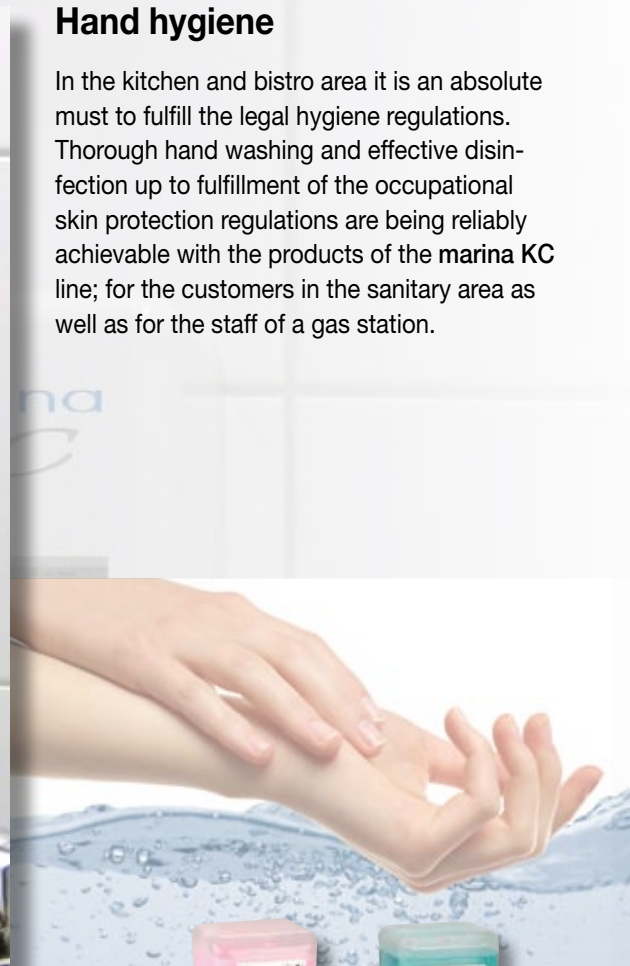

Whether you have to clean small quantities of glass with household dishwashers or large quantities with commercial single-tank and multi-tank dishwashers, e. g. at motorway gas stations; for that, KIEHL offers ecological and economical solutions. Plates without starch build-up and flashing glasses without spots are demonstrated.

Everything's hygienic and well-cared!

Hand hygiene

In the kitchen and bistro area it is an absolute must to fulfill the legal hygiene regulations. Thorough hand washing and effective disinfection up to fulfillment of the occupational skin protection regulations are being reliably achievable with the products of the **marina KC** line; for the customers in the sanitary area as well as for the staff of a gas station.

Hand wash soap	15 Opytat	15		16	
Hygienic hand cleaning for bistro/kitchen and sanitary areas VAH listed; tested to EN 1499, EN 1276	16 Opybac				
Hand disinfection for bistro/kitchen VAH listed; tested to EN 1500, EN 1276	17 Opydes				
Special hand soap – heavy-duty hand cleaner	18 Opytec	17		18	

Everything's aromatically clean and hygienic!

Cleaning and hygiene in the sanitary area

Clean and hygienic sanitary areas and restrooms contribute essentially to the positive image of the gas station. With pleasant smelling and highly effective KIEHL products this is no problem.

Routine cleaning for floors, surfaces and fittings

RK listed; tested to EN 1040, EN 1275, EN 1276 and EN 1650

20 **Sanikal**

21 **Sanpurid**
(Classic/Citro)

22 **Kiehl-Desisan**
concentrate

Everything for the perfect total impression!

Exterior and gasoline pumps – forecourt

Gasoline pumps, pump areas, pump nozzles as well as oil, tire and accessory counters need a regular cleaning. Forecourt areas, facades and promotional signs have to be clean, too. Because the first impression is always the deciding which adheres to the customers.

KIEHL services

KIEHL technical advisors and application technicians are your contact person, if you like to make use of services, e. g. the issuing of individual cleaning and hygiene plans, hygiene and HACCP trainings locally and much more.

The employees of the technical service install and service also the dosing systems of dishwashers.

Clean and care advices

Hand disinfection	What	Whereby	Dosing	How	When	Information	
Hand disinfection					daily and if required	Put hand disinfection undiluted onto the hands and rub 30 seconds thoroughly. Observe skin protection plant!	15
Baking oven, convection oven		XDM-FORTE	Undiluted from spray bottle		daily	Heat up baking oven to 20°. Foam product onto to be cleaned surface. Clean surface with a soft cloth or sponge. Rinse surface with clear water and wipe with dry cloth or sponge.	6
Surfaces cold stores, work surfaces, machines, devices		BLUTOXOL	25 ml to 100 ml in foam spray bottle		daily	Foam green cloth and wipe surfaces systematically. Application time 30 min (DVG).	5
Floor		VERPROP	40 ml to 8 l water		daily	Spread product solution with slightly squeezed mop in systematic movements. Absorb the dissolved dirt with plunged and well-squeezed mop.	4

Surfaces, which come into contact with food, have to be treated with plenty of drinking water after the application time of the disinfectant. Please observe the safety and application advice on the containers, the product instructions as well as the MSDS, which you will find on the container or on homepage www.kiehl-group.com. Please also observe the training and occupational responsibilities of the manufacturer. ©Kiehl 2014/2011
